

Homework05 41047025S 王重鈞

Use "make" to compile all program file.

5.1 Memory Monitor

This program will monitor your file /proc/meminfo and print the available space you can use. Use ./hw0501 -help to get more information

5.2 ID3 Editor

This program will help you to modify the ID3 tag for MP3 file. Use ./hw0502 -h to get more information **This program only accept one modify with one option** If the file has ID3v1 tag, but doesn't have data, It will print "None";

5.3 Base64

This will help encode and decode the file with base64.

```
./hw0503 [options] -e, --enc Encode a file to a text file. -d, --dec Decode a text file to a file. -o, --output Output file name.
```

5.4 Taiwanese Learner

This program will help you learn Taiwanese.
